Narratives

Disaster Damage:

On September 14, 2018 Hurricane Florence made landfall near Wrightsville Beach in New Hanover County, North Carolina. In the days prior to landfall, Florence had exhibited wind speeds typical of a Category 4 Hurricane but was downgraded to Category 1 before eventual landfall.

Despite the downgrade in intensity, Florence inundated parts of North Carolina and was the wettest tropical cyclone in the history of the Carolinas with rainfall totals greater than 25 - 35 inches in parts of the State. The rainfall intensity, combined with the slow-moving southwest track of the system and large wind field contributed to historic flooding across Southeastern and Central North Carolina. The rainfall fed the Cape Fear, Lumberton, and Waccamaw Rivers and led to intense riverine flooding, damaging infrastructure, homes, and businesses in the surrounding area. More than nine river gauges registered flood conditions greater than a 500-year event. The majority of damage caused by Hurricane Florence is due to this extended rainfall as the storm trekked southwest slowly through coastal North Carolina for six days.

In addition to rainfall, Florence drove a record-breaking storm surge of 9 - 13 feet. The result of the storm surge, rainfall, and river overflow was catastrophic and life-threatening floods for a massive geographical extent of the State.

Recovery Needs:

North Carolina's number one priority is to allow families to return to their homes and to ensure those homes are in safe and sanitary conditions. For this reason, the Unmet Needs Assessment focuses on housing recovery programs and supportive services to families and persons in need.

As part of the Substantial Action Plan Amendment 4 process, the State reanalyzed unmet need data, specifically as it relates to owner-occupied and rental housing. This revised Housing Unmet Needs Assessment updates the previous analysis conducted by the State for the initial Florence Action Plan and subsequent Substantial Action Plan Amendments. The State's revised Housing Unmet Needs Assessment is based on the most recent disaster recovery data sets.

Based on the most recent data sources consistent with HUD methodology for estimating serious housing unmet need for owner-occupied and rental housing, the State observed a roughly 26 percent increase for serious housing unmet need when compared to the previous assessment. The reanalysis outlined in this section of the Action Plan revalidates the State's plan to allocate most of the CDBG-DR funding to address continuing housing unmet need.

This Housing Unmet Need Assessment also relies on the work that was conducted in the original Florence Action Plan and subsequent Substantial Action Plan amendments. The analysis and resulting recovery programs also account for long-term sustainability, with a priority placed on the homeowner and renter finding safe and suitable housing rather than simply rebuilding a damaged unit. Therefore, North Carolina will conduct an analysis when rebuilding a severely damaged home

versus constructing a new home in an area safe from repetitive flood loss, which will consider the cost of repairing versus replacement and estimated long-term losses due to repeat flood events. It is important to note that previous analyses related to housing unmet need point to a large unmet need for homeowners who wish to sell their homes and relocate to higher and safer ground, and additional damages and unmet need for Public Housing Authorities in storm impacted counties. Substantial Amendment 4 and previous amendments outline that funding related to Strategic Home Buyout and the Public Housing Restoration Fund activities that have been reallocated from CDBG-DR to CDBG-MIT. With Substantial Amendment 4, the Public Housing Restoration funds were reallocated from CDBG-DR to CDBG-MIT. Please refer to the State's CDBG-MIT Action Plan for more details on these activities and any additional unmet needs analyses.

Nonsubstantial Action Plan Amendment 5 includes technical clarifications that allow the Affordable Housing Development Fund program to account for a variety of scenarios that result in the creation of long-term affordable homeownership and rental housing units to low- and moderate-income households. Overall, the intent of these technical clarifications is to retain the activities and eligible beneficiaries as presented in previously approved Action Plan amendments.

The reanalysis of housing unmet need under Substantial Amendment 4 highlighted a higher serious housing unmet need than originally estimated that continues to be reflected in the allocations under Substantial Amendment 6. The result of such ongoing reevaluation and increased interest in housing recovery prior to the closing of applications in April 2023 has prompted the State to further increase allocations to the Homeowner Recovery Program (\$54.2 million allocation increase) under Substantial Amendment 6. The reallocation of funding for the Homeownership Assistance Program, Housing Counseling Fund, Code Enforcement Compliance and Support Program and partial transfer of the Affordable Housing Development Fund program funds to the CDBG-MIT Action Plan further strengthens the ongoing recovery and mitigation efforts of the State's housing programs. These reallocations are in consideration of the amount of funding dedicated to housing programs across both the Matthew and Florence CDBG-DR grants, continued anticipated funding needs for currently operating activities, and the realignment of longer-term resilience and mitigation activities, such as those related to housing stock development further by the Affordable Housing Development Fund program, with the objectives of the CDBG-MIT funds. The Planning allocation has also been increased as planning activities related to Hurricane Florence recovery efforts continue. However, the bulk of planning activities remain largely consolidated in the CDBG - Mitigation (CDBG-MIT) Action Plan.

NCORR is charged with administering CDBG-DR funds as Grantee to HUD. Therefore, NCORR has sought to develop an unmet needs analysis which is true to the conditions in the State using the best available data and resources to help inform the disaster recovery. NCORR understands that future information may become available that would adjust the findings of the unmet needs analysis. Changes to the Action Plan may result if additional funds become available or if new information is discovered during program planning, development, and delivery that informs a more beneficial recovery.

Activity Description:

Development Finance Initiative (DFI) is part of the UNC School of Government Office of Sponsored Research assisting in the Affordable Housing Development Fund Planning work. To provide disaster recovery to MID and NCORR targeted counties, consistent with the State’s HUD-approved CDBG-DR Action Plan by determining regional affordable housing needs, identifying opportunities to expand and preserve housing choices, recommending possible implementation strategies, and then completing implementation strategies in conjunction with local governments and community partners.

Location Description:

Statewide

Activity Description:

To account for the increased demand for code enforcement due to increased construction work in recovering areas, NCORR has established a Code Enforcement and Compliance Support Program. The program identifies deteriorated or deteriorating areas and funds resources necessary to carry out code enforcement support and training activities required to complete disaster recovery in those areas. Department of Insurance, located at 430 N Salisbury St. Ste 4092, Raleigh, NC 27611, provides a base location for supervisors and apprentices. Training will take place on NCORR-funded properties located in MID counties. Activity pending cancellation per SAPA6.
